Message from the Chairman

I am pleased to report further significant progress for PMK activities for the period of 2024-2025. We now serve almost 361412 members and amount of loan disbursement stood BDT 25939 million to the 296131 borrowers which, taken with their families and dependents, means we are making real strides in achieving our united ambition: reducing poverty by providing socially responsible financial services to low-income female entrepreneurs across 34 Districts in the Bangladesh. At the same time, we are proudly extended our socio economy services. it is our financial success that allows us to maintain and expand our mission and footprint to 17 new branches now all together PMK has established 340 branches end of fiscal year 2024-2025. we built decisively on the improved performance in this period.

After end of COVID pandemic since 2020-2023 PMK has faced huge amounts of challenges this year to rebuild and return to our normalization of program due to political turmoil as name 36 July country as whole and natural disaster in the eastern part of the country.

Although overall environment and socio-economic condition of country hardship & backwardness PMK his maintain the activates with good quality, 14% year to year growth and balancing the quality and quantity both. We saw strong operational and financial performance with resilient outcome.

We are in all our efforts focused on building a sustainable and long-term success. A key element is us diversify the financial inclusion services, CSR activities and digital transformation strategy.

We are impressed by the Kamrun Nahar (Chief Executive) vision and delivery, including renewed focus on operational discipline, expansion the program at the northern part of country and highly focus on growth and corporate social services (CSR) from our surplus.

Special thanks are also due to all our other stockholders, MRA, PKSf, General body members, executive committee members our clients, of course, and also our lenders and whose support is essential to achieving our purpose.

Lastly, on behalf of the Board, I would like to express my sincere gratitude to our 2670 full time dedicated employees. Their dedication, often in challenging environments, is the engine of PMK.

I hope the PKM and his team will continue their highest effort to maintain the competitive human resources management, qualitative, tailor-made services, transparent system, to accomplishment of CIB, full implementation of digitalization as DFS & MFS with full of success in coming years.

A.K.M. Shirajul Islam
Chairman

Message from the Chief Executive

It is my privilege to present the Annual Report of Palli Mongal Karmosuchi (PMK) for the fiscal year 2024-2025. Over the past 37 years, PMK has steadfastly worked to improve the lives of marginalized and underserved communities through a comprehensive range of humanitarian and development initiatives.

PMK was founded with the primary objective of providing immediate relief to those affected by natural disasters and conflict situations. Our early efforts focused on delivering essential aid—including food, water, shelter, and medical support—to vulnerable populations in crisis. These efforts quickly established PMK as a reliable and effective emergency response organization.

Recognizing that sustainable development requires addressing the root causes of poverty and inequality, PMK has progressively expanded its programs to include long-term interventions in education, healthcare, and economic empowerment. We have established healthcare facilities, including clinics and hospitals, in underserved areas to ensure access to essential medical services.

Economic empowerment remains a central component of our mission. PMK supports small-scale entrepreneurs and farmers by providing training, resources, and market access, thereby enabling them to improve their livelihoods and contribute to local economies.

Throughout its journey, PMK has upheld the highest standards of transparency, accountability, and ethical conduct. Our robust monitoring and evaluation systems ensure the effective use of resources and reinforce the trust placed in us by our partners, donors, and beneficiaries.

Looking forward, PMK remains dedicated to advancing social justice, humanitarian aid, and sustainable development. We are committed to adapting our strategies to meet emerging challenges and to maximize our impact.

I extend my heartfelt appreciation to the PMK staff for their unwavering dedication, the Executive Committee for their guidance, and our members, government authorities, and funding partners for their continued support. I also express gratitude to the communities we serve and all stakeholders who have contributed to our progress.

This report provides a comprehensive overview of our achievements and challenges during the year. I welcome your feedback and suggestions as we strive to strengthen PMK's mission and impact in the years ahead.

Kamrun Nahar
Chief Executive

Vision

A society which is economically productive and equitable, socially just, environmentally sound, and effectively democratic.

Mission

Participatory sustainable development provided institutional support to the poor (Particularly women)

Objective

The overall objective of PMK is to alleviate the poverty of poor families and empower women and men in social and economic aspects.

Legal Status

Year of establishment	1988
Legal Entity	Social Welfare Directorate: Reg. # Dhaka - 02218. NGO Affairs Bureau: Reg. # 709. Micro Credit Regulatory Authority: Certificate # 00862-00387-00312 Certificate of Registration of Societies: S-7017(205)/07

2019	PMK Nursing College Inauguration
2020	SEP Project Start
2021	Mamata Palli Resort Inauguration
2022	Upgrade MIS system and new version website
2023	RMTP and KGF-Sufolon project start
2024	RAISE-MCP&APT and YOUTH started journey with PMK`
2025	Agroshor-SMART project start

Late Alhaj Dewan Abdul Mannan
1949-2016
Founder & Chief Advisor, Palli Mongal Karmosuchi (PMK)
Valiant Freedom Fighter & Philanthropist

*"Your vision sparked a movement; your legacy continues to transform millions of lives."-
Voice from Millions.*

Our inspiration, Alhaj Dewan Abdul Mannan, was born in 1949. He was a successful post-graduate from the University of Dhaka. Immediately after completion of post-graduation, he evidently surfaced as a businessman and indulged himself as a social worker as well.

To the world, he was a brave soldier who fought for our nation's independence, and a highly successful **businessman**. But to us, he is simply the heart and soul of PMK—a man of immense compassion who spent his life looking out for the marginalized.

Back in 1988, when PMK was just a small group of volunteers trying to help disaster-affected communities, it was his unwavering belief that gave us wings. He didn't just provide resources; he gave his whole heart, endless inspiration, and steady guidance to the team. Alongside our **Chief Executive, Ms. Kamrun Nahar**, he stood as a pillar of strength, helping shape a grassroots dream into the national lifeline it is today.

Though he is no longer with us, his kindness, integrity, and love for humanity are woven into everything we do. Every success story we share in this report, and every life we help change, is a reflection of his original dream.

We pray to the Almighty for the eternal peace of his departed soul. He will always be our guiding light, and his memory will live on forever in the hearts of everyone at PMK.

PMK's Highlights, FY (2024-2025)

Operational Profile	
Institutional & Outreach	
No. of Branch	340
No. of Samity	17137
No. of Member	361412
No. of District	34
No. of Thana/ Upazila	236
No. of Union/ Pourashava	2109
No. of Village/ Ward	7400
Total Staff	2670
Financial Portfolio - Savings	
Total Savings Balance (in BDT)	7165551770
• Compulsory (in BDT)	3734855041
• Voluntary (in BDT)	1365757829
• MSP (in BDT)	1829963900
Financial Portfolio - Loan	
Borrower No.	296131
Total Disbursed Loan (in BDT)	36627617000
Loan Outstanding (in BDT)	25939857099
Loan Recovery Rate	99.30%
Borrower per Branch (Efficiency)	871
Borrower Coverage	82%
Savings to Loan Ratio	27.62%
Average Loan Size (in BDT)	87595.89
Performance Ratios	
Operation Self-Sufficiency (OSS)	153.79%
Portfolio at Risk (PAR)	8.46%

PMK has achieved a significant milestone by expanding its footprint to 34 Districts and 236 Upazilas. The increase in the number of branches from 275 (2021) to 340 (2025) signifies a strategic push toward deeper rural penetration.

Maintaining a high Borrower-Member Ratio (approx. 82%) underscores PMK's ability to convert general members into active economic participants.

There is a clear upward trend in the Average Loan Outstanding per Borrower, which has grown from BDT 52,789 in 2021 to BDT 87,595 in 2025. This indicates that members are graduating to larger-scale micro-enterprises.

Chart 1: Five-Year Institutional Growth and Outreach (2021–2025)

The chart illustrates PMK's consistent upward trajectory across all administrative tiers over the last five years. This steady expansion underscores our commitment to financial inclusion, moving from broader district-level presence down to the grassroots village level.

The most significant growth is observed at the **Village/Ward** level. In 2021, PMK operated in approximately **5,700** villages; by 2025, this footprint has expanded to over **7,400** villages. This indicates a strategic focus on reaching the "last mile" of the underserved population.

Our presence in **Unions, Pouroshavas and City Corporation** has seen a healthy, linear increase, climbing from roughly **1,700** units in 2021 to over **2,100** by 2025. The number of **Branches** has remained stable with a slight upward trend, ensuring that

while our geographical reach (villages) increases, our physical service centres are positioned to support that growth efficiently.

The number of **Districts** and **Thanas/Upazilas** remains relatively steady, suggesting that the recent years have been focused on **deepening impact** within existing regions rather than spreading resources thin across new geographical territories.

MICROFINANCE PROGRAM

Palli Mongal Karmosuchi (PMK) is a national-level non-political development organization headquartered in Zirabo, Ashulia, approximately 20 kilometers from Dhaka. Founded in 1988 through the voluntary efforts of socially conscious youth, PMK was established with the inspiration of Dewan Abdul Mannan and under the visionary leadership of Ms. Kamrun Nahar, who continues to serve as the Chief Executive.

Initially focused on providing humanitarian relief to disaster-affected communities, PMK quickly gained recognition for its effective emergency response. It was formally registered with the Directorate of Social Services in 1988 and with the NGO Affairs Bureau in 1993 to facilitate foreign funding. Over time, PMK expanded its focus to long-term development, addressing poverty and inequality through programs microfinance and financial inclusion, education, healthcare, established a hospital, a nursing college, skill development, and community empowerment.

Now in its 37th year, PMK stands as a trusted organization committed to sustainable development, social justice, and improving the lives of marginalized populations across rural Bangladesh.

Major Activities

To bring self-reliance among the powerless poor women for promoting socio-economic and facilitating in establishing their human rights and empowerment of women in the society so that they themselves can plan and implement different socio economic and environmental activities with a view to setting up an institutional framework to establish a justice and balanced society. PMK provides the following broad services:

- Financial intermediation through microfinance
- Social development services
- Micro enterprises
- Necessity of Enterprise of Enhance Development (NEED)

PMK MF program is being operated on a high scale, as an independent program. Presently PMK operating 340 branches in 34 districts.

In order to create more employment opportunities PMK has initiated support to small entrepreneurs, CMSME (Cottage, Micro, Small and Medium Enterprises) so that they can expand their business and increase employments opportunities in their enterprises. We extend our sincere appreciation to all stakeholders who have contributed to our success, with special acknowledgment to our colleagues, the members of the Executive Committee, the Microcredit Regulatory Authority (MRA), PKSF, and our partner financial institutions.

Graph 1: Trend Analysis of PMK (2021-2025)

Over the last five fiscal years, Palli Mongal Karmosuchi (PMK) has demonstrated a remarkable upward trajectory in its operational and financial performance. With an average annual growth rate of 14%, PMK has successfully balanced aggressive outreach with financial stability. Total membership has surged by approximately 24%, growing from 290,847 to 361,412. This consistent growth reflects high community trust and the successful delivery of financial services.

A standout highlight is the 74% growth (5 years) in Total Savings Balance, reaching BDT 7.16 billion in 2025. This indicates a robust savings culture among members and provides PMK with a strong internal liquidity base. The synchronized rise in loan disbursements and outstanding balances suggests an efficient capital rotation. The loan portfolio remains the primary driver of PMK's financial growth, catering to the increasing credit needs of the members.

While PMK has expanded rapidly, the growth remains sustainable. The steady 14% average growth rate indicates that PMK is successfully navigating the complexities of the microfinance sector while maintaining its core mission of socioeconomic empowerment.

Table 1: Basic information of Microfinance program in PMK of the last 5 years

Particulars	2021	2022	2023	2024	2025
No. of Member	290847	328179	352162	359207	361412
Borrower No.	231951	268394	287924	285895	296131
Loan Outstanding (Million BDT)	12244.63	17649.78	21819.09	22948.49	25939.86
Total savings balance (Million BDT)	4110.02	4959.42	6068.81	6761.41	7165.55
Disbursed Loan (Million BDT)	18265.83	26515.25	33577.37	34189.90	36627.62

Chart 2: Savings and Loan Outstanding per Branch

The trajectory over the 2021-2025 period reflects a strategic transition from geographical expansion to **intensive portfolio deepening**. While the physical infrastructure of PMK has grown, the primary value driver has been the exponential increase in the financial capacity managed per individual branch.

The consistent outward migration of the portfolio boundary indicates that each branch is managing significantly higher credit volumes without a proportional increase in administrative overhead. This trend underscores a successful achievement of **economies of scale** at the grassroots level.

The balanced growth in savings mobilization per branch serves as a critical indicator of institutional resilience. By increasing the average savings base per unit, PMK has enhanced its internal liquidity positions, reducing reliance on external borrowing to fund its loan portfolio. The 2025 performance represents PMK's most robust operational stance to date. The convergence of high-volume credit delivery and strong savings aggregation at the branch level suggests that the staff and systems have matured to handle complex, large-scale microfinance operations efficiently.

This pattern of growth confirms that PMK is not merely expanding its footprint but is building **sustainable, high-capacity financial hubs**. The increased "financial weight" of each branch strengthens the overall institutional foundation against market volatility.

Chart 3: Trends and Comparison of Loan Outstanding and Loan Disbursement Years of 2021-2025

The comparison of key loan performance metrics highlights the consistent year-on-year growth during the FY 2021-25 period. The average loan outstanding and loan disbursements per borrower have shown a clear upward trend. In FY 2024-25, the average Loan Outstanding per Borrower reached **BDT 87,596**, representing a notable increase from the previous year's BDT 80,269 and a significant jump from BDT 52,790 in FY 2021.

Simultaneously, the Disbursed Loan per Borrower also registered impressive growth, reaching a peak of **BDT 123,687** in FY 2024-25. This compares with BDT 119,589 in FY 2023-24 and illustrates a substantial rise from BDT 78,749 in FY 2021. This substantial increase in disbursement points to the expanding portfolio and the growing appetite for credit within the micro-enterprise sector.

Chart 4: Year-Wise Loan Disbursement and Loan Outstanding (2021-2025)

Total **loan disbursement** has seen a significant cumulative increase, growing from **BDT 18,266 million in 2021 to BDT 36,628 million in 2025**. In the current fiscal year (FY 2024-25), disbursements reached an all-time high, representing a **7.1% growth** over the previous year (BDT 34,190 million). This steady rise underscores PMK's increasing capacity to inject liquidity into the economy and meet the rising demand for credit among our clients.

Correspondingly, the Loan Outstanding (the total principal currently held by borrowers) has also climbed steadily. By the end of June 2025, the Loan Outstanding stood at **BDT 25,940 million**, compared to **BDT 22,948 million** in 2024. The healthy gap between disbursement (green) and outstanding (blue) figures suggests a high velocity of capital and a functional recovery mechanism, as a significant portion of disbursed funds is being systematically repaid even as the total portfolio expands.

Chart 8: Trend of Savings (2021-2025) in Palli Mongal Karmosuchi (PMK)

The total savings balance has reached an all-time high of **BDT 7,166 million** in 2025, representing a steady **6% growth** over the previous year (BDT 6,761 million). Since 2021, the total savings portfolio has grown by an impressive **74%**, nearly doubling the capital base provided by our members.

Compulsory Savings: Remaining the largest component of our portfolio, Compulsory Savings grew to BDT 3,735 million in 2025. This steady increase reflects the expanding membership base and their consistent commitment to long-term financial security.

Voluntary Savings: We observed a significant surge in Voluntary Savings, which rose to BDT 1,366 million (up approximately 20% from BDT 1,140 million in 2024). This indicates that members are increasingly utilizing PMK as a preferred platform for their flexible liquidity needs.

MSP: The MSP continued its upward trajectory, reaching BDT 1,830 million. This growth highlights the popularity of small-scale, disciplined saving habits among our core target demographic.

FBS: The FBS showed the most rapid year-on-year percentage growth, climbing from BDT 160 million in 2024 to BDT 235 million in 2025.

Chart 9: Program-Wise Loan Outstanding on June, 2025

Chart 10: Project-Wise Loan Outstanding on June, 2025

Programs

JAGORON PROGRAM

The Jagoron program is a core initiative aimed at initiating household-level economic activities through basic microcredit services. It focuses on empowering low-income individuals, particularly women, by providing accessible financial resources to start small-scale income-generating projects. By promoting self-employment and financial literacy, Jagoron serves as the foundational step for members to break the cycle of poverty and achieve socio-economic stability. The program's extensive reach and financial impact during the 2024-25 fiscal year are highlighted below:

Jagoron maintains a wide presence across 34 districts and 228 upazilas, supported by a network of 340 branches. We have successfully engaged 160,601 families, with 123,625 active borrowers currently utilizing our services. The program has achieved a significant cumulative loan disbursement of BDT 7,289.69 million, while maintaining a robust loan outstanding of BDT 4,392.50 million. With an average loan size of BDT 35,530.86, Jagoron remains focused on providing manageable entry-level capital tailored for small household ventures and micro-startups. Through these efforts, PMK continues to strengthen the grassroots economy and promote inclusive growth across Bangladesh.

Jagoron at a glance in FY (2024-25)

Borrowers	123625

JAGORON Program

AGROSOR PROGRAM

The Agrosor program is a strategic intervention funded by the Palli Karma-Sahayak Foundation (PKSF) and the World Bank, specifically designed to support progressive micro-entrepreneurs. Unlike traditional microcredit, Agrosor targets individuals who have the potential to scale their small businesses but lack access to formal banking capital. By providing flexible, larger-sized loans and technical assistance, the program aims to stimulate local economies, create sustainable employment, and bridge the gap between micro-level subsistence and small-scale enterprise. As a dedicated Partner Organization (PO), PMK implements this project to foster economic resilience and graduation among its members. During the Fiscal Year 2024-25, PMK's implementation of the Agrosor program demonstrated significant scale and financial depth:

The program has achieved a robust footprint, operating across 34 districts and 221 upazilas. Our network of 340 branches ensures that specialized entrepreneurial credit is accessible even in remote areas. We have successfully reached 91,077 families, helping them transition toward more profitable livelihoods. Currently, the program supports 79,547 active borrowers. The program's financial strength is reflected in a cumulative loan disbursement of BDT 22,222.43 million. As of the end of the fiscal year, the loan outstanding stands at BDT 16,990.85 million, indicating a healthy and active revolving fund. The average loan size of BDT 213,595 highlights the program's focus on high-impact lending, providing sufficient capital for entrepreneurs to invest in machinery, inventory, and business expansion.

Average Loan Size (in BDT)	213595.1531
Borrowers	79547

AGROSOR Program

SUFOLON PROGRAM

The Sufolon program is a specialized financial service of PKSf, designed specifically to support various agricultural activities such as crop cultivation, livestock rearing, fisheries, and agro-forestry. It offers a unique flexible repayment system that aligns with the seasonal nature of agricultural income, allowing farmers to repay loans after harvesting or selling their produce. By providing timely capital and technical knowledge, Sufolon empowers rural farmers to enhance productivity and ensure food security for their families. PMK's implementation of the Sufolon program has achieved the following milestones as of FY 2024-25:

The program is currently active across 33 districts and 159 upazilas, operating through a network of 236 branches. We are currently supporting 1,11,239 families, with 80,987 active borrowers directly benefiting from our agricultural credit services. The program has reached a cumulative loan disbursement of BDT 6,113.96 million, reflecting a strong commitment to rural development. The current loan outstanding stands at BDT 3,936.92 million, indicating steady fund rotation and borrower engagement. With an average loan size of BDT 48,611.78, the program provides adequate capital tailored to the specific needs of small and marginal farmers to manage seasonal agricultural inputs effectively.

Average Loan Size (in BDT)	48611.77722
Borrowers	80987

SUFOLON Program

ABASON PROGRAM

PMK's Abason loan program is designed to support low-income families in improving their housing conditions. Through this initiative, PMK provides financial assistance for the construction, renovation, or expansion of homes, enabling clients to live in safer, more secure, and dignified environments. The loan is structured to be flexible and accessible, helping rural and underserved communities build permanent shelter. By addressing the basic need for adequate housing, the Abason loan contributes to better health, stability, and overall well-being for families across PMK's operational areas. PMK is proud to be a partner organization of PKSf in implementing this impactful initiative.

As of the current fiscal year, PMK has demonstrated significant impact through its targeted microenterprise lending. Operating across 2 districts and 6 upazilas, the program is managed via 21 dedicated branches, ensuring localized support for burgeoning businesses.

Currently, we serve 453 families, with a core group of 420 active borrowers driving local economic activity. The financial health of the program is robust, with a total loan disbursement of BDT 101.60 million and a healthy outstanding balance of BDT 73.71 million. Notably, the average loan size of BDT 175,491.91 reflects our commitment to providing substantial capital, enabling entrepreneurs to scale their operations, enhance productivity, and create sustainable livelihoods within their communities.

ABASON Program

BUNIAD PROGRAM

The Buniad program is a specialized initiative of PKSF, specifically designed to support the ultra-poor population who are often excluded from mainstream development activities. It focuses on providing flexible financial services along with technical and social support to help extremely vulnerable families build a sustainable asset base. By addressing the unique challenges of extreme poverty, Buniad aims to ensure food security, improve health outcomes, and create a pathway for these households to graduate into more stable economic conditions. The implementation and financial performance of the Buniad program as of the current fiscal year are summarized below:

The program is currently active in 10 districts and 38 upazilas, managed through a focused network of 38 branches. PMK has successfully extended its support to 1,367 families, with 1,261 active borrowers currently benefiting from the program's credit facilities. The program has achieved a total loan disbursement of BDT 22.05 million, reflecting our commitment to the most marginalized sectors of society. The current loan outstanding stands at BDT 15.78 million, indicating a steady recovery and reinvestment cycle within the target communities. The average loan size of BDT 12,513.73 highlights the program's focus on providing manageable, small-scale capital tailored to the specific needs and repayment capacities of ultra-poor households.

Through these strategic efforts, PMK remains dedicated to fostering inclusive growth and providing a solid foundation for the most underserved families in Bangladesh.

BUNIAD Program

ENRICH PROGRAM

The ENRICH project is a flagship initiative of PMK aimed at improving the overall quality of life in selected villages through integrated development. It focuses on healthcare, education, income generation, and social empowerment by addressing the multidimensional aspects of poverty. The project has three key components: ENRICH-AC (Asset Creation), ENRICH-IGA (Income Generating Activities), and ENRICH-LI (Livelihood Improvement).

- ENRICH-AC helps ultra-poor households acquire productive assets to build a foundation for income.
- ENRICH-IGA supports small-scale income-generating ventures to promote self-reliance.
- ENRICH-LI focuses on skills development, training, and other interventions to enhance long-term livelihoods.

As of the current fiscal year, PMK's implementation of these specialized ENRICH components reflects a highly targeted approach.

ENRICH at a glance in FY (2024-25)

	ENRICH Components

Average Loan Size	6636.5	39028.71	1394
Borrowers	2	352	2

Currently operating in **one district and one upazila** through a dedicated branch, the program maintains a focused footprint for intensive monitoring. **ENRICH-IGA (Income Generating Activities)** is the primary driver of the project, serving **440 families** with **352 active borrowers**. It has a cumulative loan disbursement of **BDT 29.53 million**, an outstanding balance of **BDT 13.74 million**, and an average loan size of **BDT 39,028.71**. **ENRICH-AC & LI (Asset Creation & Livelihood)**, these niche components support targeted households with specialized needs. **Asset Creation** maintains an outstanding of **BDT 13,273**, while **Livelihood Improvement** has an outstanding of **BDT 2,788**, catering to essential household upgrades with smaller average loan sizes.

LRL PROGRAM

The Livelihood Restoration Loan (LRL) is a specialized stimulus program initiated by PKSF and the Government of Bangladesh to counteract the economic shocks caused by the COVID-19 pandemic. Its primary mission is to revive rural economic activities and create self-employment opportunities for low-income households, particularly those who lost their livelihoods during the global health crisis. PMK implements this program in two distinct phases to ensure a broad and deep recovery across its working areas. The comparative performance between the two phases of LRL reflects PMK's strategic expansion of the stimulus support:

While the first phase (LRL) remains focused on 2 districts and 4 upazilas, the second phase (LRL-2nd) has significantly expanded the reach to 21 districts and 39 upazilas through 69 active branches. The program currently supports a total of 151 families, with a combined strength of 99 active borrowers receiving financial assistance. In the current fiscal year, LRL-2nd has disbursed **BDT 30,000**, contributing to a cumulative loan outstanding of **BDT 1,409,979** across both phases (**BDT 276,588 in LRL and BDT 1,133,391 in LRL-2nd**). The average loan size remains balanced between **BDT 16,269.88** for the first phase and **BDT 13,821.84** for the second phase, ensuring that the capital provided is manageable for small-scale livelihood restoration projects.

SAHOS PROGRAM

The SAHOS (Sustainable Access to Health and Out-of-Pocket Support) program, formerly known as the Disaster Management Fund by PKSF, is a specialized initiative designed to provide immediate financial assistance to poor households during and after natural disasters. It offers quick-disbursing, low-interest loans to help families repair homes, protect assets, and restore livelihoods affected by environmental shocks. By providing this vital safety net, the program prevents vulnerable populations from falling deeper into debt or poverty following unforeseen calamities. The program's reach and financial support during the current fiscal year are detailed below:

SAHOS is currently active across 10 districts and 57 upazilas, integrated into the operations of 82 branches. PMK has extended this protective financial shield to 2,887 families, with 2,916 active borrowers currently supported by the program. Demonstrating its commitment to disaster recovery, the program has disbursed a total of BDT 63.34 million in the current fiscal year. The current loan outstanding stands at BDT 27.17 million, ensuring a revolving fund is available for future emergency needs. With an average loan size of BDT 9,319.12, the program focuses on providing small, manageable emergency capital that helps families cover immediate repair and subsistence costs without long-term financial burden. Through the SAHOS program, PMK ensures that climate-vulnerable communities have the financial resilience required to withstand and recover from natural disasters.

Projects

To further diversify our support for micro-entrepreneurs, PMK implements two specialized sub-components under the Agrosor framework: the **Microenterprise Development Project (MDP)** and the **Sustainable Enterprise Project (SEP)**. These initiatives are designed to address niche market needs and promote environmentally sustainable business practices.

AGROSOR-MDP PROJECT

The MDP component focuses on scaling up micro-enterprises by providing larger capital injections and technical business development support. It is tailored for entrepreneurs who have demonstrated the potential to graduate into small-scale industries.

Currently operational across 3 districts and 4 upazilas, managed through 23 active branches. The project serves 7 families, with 4 active borrowers currently spearheading enterprise growth. With a cumulative loan disbursement of BDT 1.20 million, the current loan outstanding stands at BDT 1.72 million. Reflecting its focus on high-growth ventures, the project maintains a substantial average loan size of BDT 431,166.25, providing the necessary leverage for business expansion.

Loan Outstanding (in BDT)	1724665
Average Loan Size (in BDT)	431166.25
Borrowers	4

AGROSOR-SEP PROJECT

The SEP component emphasizes "green" growth by encouraging micro-entrepreneurs to adopt environmentally friendly practices. It aims to increase both the productivity and the environmental sustainability of micro-enterprises.

The project is concentrated in one district and one upazila, utilizing a network of 7 branches for intensive supervision. PMK has successfully engaged 81 families, with 70 active borrowers implementing sustainable business models. The project has achieved a loan disbursement of BDT 1.50 million, while the loan outstanding is BDT 5.92 million. With an average loan size of BDT 84,650.11, SEP ensures that entrepreneurs have access to the capital required to invest in eco-friendly technologies and efficient resource management.

KGF-S PROJECT

With the demand of Sufolon program, a vital component of our intervention is the **KGF-S** program. As part of our specialized agricultural interventions, the KGF-S component provides high-impact support to targeted farming communities. This project focuses on scaling agricultural ventures and enhancing the technical capacity of farmers through concentrated supervision.

KGF-Sufolon at a glance in FY (2024-25)

Working Areas	3 Districts
	5 Upazilas
Active in	6 Branches
No. of Families	144
Loan Disbursed (in BDT)	23750000
Loan Outstanding (in BDT)	10963006
Average Loan Size (in BDT)	85648.484
Borrowers	128

KGF-S is strategically implemented in 3 districts and 5 upazilas via 6 dedicated branches. The program serves 144 families, maintaining a high engagement rate with 128 active borrowers. To support more intensive farming operations, the program has disbursed BDT 23.75 million, with a loan outstanding of BDT 10.96 million. With a significant average loan size of BDT 85,648.48, KGF-S enables farmers to transition from subsistence farming to more robust, technology-driven agricultural enterprises.

CSL-SEP PROJECT

The CSL-SEP (Sustainable Enterprise Project) represents PMK's commitment to fostering eco-friendly and economically viable micro-enterprises. As of the 2024-25 fiscal year, the project maintains a focused operational footprint in one district and one upazila, supported by three dedicated branches. Currently, the initiative serves 15 families, with 11 active borrowers leading sustainable business transitions.

The accompanying trend analysis of Loan Outstanding reveals a dynamic financial journey. After a steady climb from BDT 2.81 million in 2021 to a peak of BDT 8.91 million in 2024, the portfolio shows a strategic reduction to BDT 0.98 million in 2025. This indicates a high rate of successful loan maturity and recovery as enterprises graduate from the project cycle. With a total cumulative disbursement of BDT 2.32 million and a robust average loan size of BDT 88,755, CSL-SEP continues to provide the essential capital required for micro-entrepreneurs to adopt "green" technologies and sustainable operational models, ensuring long-term resilience for local small businesses.

H-SANITATION PROJECT

The H-Sanitation Project is a vital health intervention by PMK, focused on improving community hygiene standards through accessible financing for sanitary infrastructure. As of the 2024-25 fiscal year, the project has achieved a substantial footprint, operating across 12 districts and 65 upazilas through 62 active branches. This extensive network has enabled us to reach 7,953 families, all of whom are currently active borrowers dedicated to upgrading their household sanitation facilities.

The project's financial trajectory, as shown in the Loan Outstanding trend, reflects a period of exponential growth and community adoption. Starting from a modest BDT 45,000 in 2022, the portfolio surged to BDT 216.45 million by 2025, representing a massive increase in scale. With total loan disbursements reaching BDT 327.26 million and a manageable average loan size of BDT 27,215.92, the project successfully provides the targeted capital necessary for fundamental health improvements. These results underscore PMK's unwavering commitment to fostering a cleaner, healthier environment for rural households across Bangladesh.

H-WATER PROJECT

The H-Water Project is a critical environmental and health initiative by PMK, dedicated to ensuring sustainable access to safe drinking water for rural communities. As of the 2024-25 fiscal year, the project has established a strong presence across 12 districts and 60 upazilas, supported by an active network of 61 branches. This infrastructure currently serves 1,527 families, with an equal number of 1,527 active borrowers utilizing the program to implement essential water solutions.

Financial trends for the project demonstrate a significant and consistent upward trajectory in community investment. The Loan Outstanding has grown remarkably from a starting point of BDT 25,000 in 2022 to BDT 36.80 million in 2025, marking its highest point to date. With total loan disbursements reaching BDT 58.58 million and an average loan size of BDT 24,101.32, the project provides accessible capital tailored for household-level water infrastructure. These results reflect PMK's successful efforts in scaling specialized microfinance tools to meet the fundamental need for clean water across its working areas.

RRS PROJECT

The RRS Project is a cornerstone of PMK's mission to provide comprehensive financial services to rural communities, ensuring economic stability and growth for underserved populations. As of the 2024-25 fiscal year, the project maintains an extensive operational reach, covering 28 districts and 127 upazilas through a robust network of 287 active branches. This infrastructure currently supports 1,405 families, with 671 active borrowers utilizing credit facilities to sustain their livelihoods.

The project's financial lifecycle, depicted in the Loan Outstanding trend, shows a strategic transition in its portfolio. Following a peak in 2022 at BDT 133.66 million, the outstanding balance has undergone a planned reduction, reaching BDT 13.99 million in 2025. This trend reflects a successful period of loan maturity and capital recovery within the target areas. With an average loan size of BDT 20,854.40, the RRS project remains a vital tool for providing manageable micro-capital that empowers rural households to achieve long-term financial independence and resilience.

MDP-AF PROJECT

The MDP-AF is a strategic initiative designed to provide substantial financial leverage to established micro-entrepreneurs looking to scale their operations. As of the 2024-25 fiscal year, the project operates in 3 districts and 5 upazilas, managed through 11 specialized branches. It currently supports 68 families, with 52 active borrowers utilizing significant capital for business modernization.

The financial trend for Loan Outstanding illustrates a period of robust investment followed by a phase of portfolio stabilization. After a significant rise from BDT 1.92 million in 2021 to a peak of BDT 27.65 million in 2023, the outstanding balance has settled at BDT 5.06 million in 2025. This indicates a successful transition through high-growth cycles and efficient capital recovery. With total loan disbursements of BDT 8.90 million and a high average loan size of BDT 97,356.85, MDP-AF remains a critical vehicle for empowering entrepreneurs to transition into small-scale industries and drive local economic development.

MFCE PROJECT

The Microenterprise Financing and Credit Enhancement Project (MFCE Project), funded by PKSF, is a strategic initiative aimed at empowering established entrepreneurs through substantial financial support. As of the 2024-25 fiscal year, the project operates across 5 districts and 18 upazilas, reaching 890 families through 29 active branches. The program currently maintains a strong engagement with 870 active borrowers.

Financial data highlights a significant year-on-year growth in capital injection, with loan disbursements rising from BDT 54.73 million in 2024 to BDT 110.99 million in 2025. This expansion has brought total cumulative disbursements to BDT 210.87 million, while the current loan outstanding stands at BDT 108.39 million. With a robust average loan size of BDT 12,459.52, the MFCE project continues to play a pivotal role in providing the core capital required for enterprises to scale and enhance their contribution to the rural economy.

RMTP PROJECT

The Rural Microenterprise Transformation Project (RMTP) is a high-impact initiative focused on integrating small-scale producers into sustainable value chains. As of the 2024-25 fiscal year, the project is active across 4 districts and 7 upazilas, managed through 8 specialized branches. Currently, the program provides intensive support to 40 selected families, all of whom are active borrowers implementing modernized agricultural or enterprise practices.

Financial performance indicates a strategic focus on high-value investments, with a total disbursement of BDT 1.64 million in 2025 following a robust BDT 21.00 million injection in 2024. The current loan outstanding stands at BDT 3.95 million, supported by a significant average loan size of BDT 9,86,618.85. These figures reflect RMTP's role in providing substantial capital to transform traditional rural ventures into commercially viable, market-oriented enterprises that drive local economic resilience.

SUCCESS STORIES

Sathi is Now an Inspiration for Entrepreneurs

Mosammat Sathi Akter's journey from a humble village in Panchagarh to becoming a successful entrepreneur in Savar is a testament to the transformative power of perseverance and strategic support. Forced into marriage at just 14 and limited by early educational challenges, Sathi began her professional life as a garment factory worker alongside her husband, Md. Rafiqul Islam. Driven by a desire for independence, the couple launched a small-scale block batik venture from their rented balcony. What started as a modest side-hustle has flourished into a thriving enterprise with a total capital valuation of approximately 7.4 million BDT. Today, Sathi is no longer an employee but a proud employer, providing livelihoods for 22 workers within her factory and showroom. Supported by the technical and financial initiatives of Palli Mongal Karmosuchi (PMK), she has transitioned from survival to success. Sathi now dreams of establishing a training institute to empower others, standing as a beacon of inspiration for aspiring entrepreneurs across the country.

Sathi living her dream

Parbati Rani Das – From Hardship to a Visionary Entrepreneur

In 2016, Parbati Rani Das began her married life in a state of extreme financial fragility, joining her husband in the modest trade of broom-making to survive. Despite their hard work, the lack of formal business planning and financial literacy often led to losses, a situation exacerbated by the total shutdown of operations during the COVID-19 pandemic. Faced with the responsibility of supporting a seven-member family, Parbati turned to Palli Mongal Karmosuchi (PMK), securing a 500,000 BDT recovery loan that saved her business and her employees' livelihoods. Beyond the capital, she demonstrated an exceptional hunger for growth by attending intensive business management training, which transformed her from a manual laborer into a strategic manager. Today, Parbati meticulously maintains financial ledgers, manages a formal bank account, and oversees a thriving enterprise that has secured her family's future. Now a recognized icon of female empowerment, she envisions expanding her brand from her own permanent factory to the international market, proving that targeted financial support and training can turn a struggling craft into a scalable global vision.

Parbati Rani new icon

Corporate Social Responsibility (CSR) Program

At Palli Mongal Karmosuchi (PMK), our commitment goes beyond financial inclusion. Through our dedicated CSR fund, we strive to build a resilient society by addressing critical gaps in healthcare, education, and disaster resilience. Our interventions are designed to reach the most underserved populations, ensuring that no one is left behind in the journey toward development.

Integrated Healthcare Initiatives

Healthcare remains the cornerstone of our CSR activities. We leverage our network of healthcare professionals to provide comprehensive medical support to underprivileged communities.

Comprehensive Healthcare Campaigns: We conduct specialized medical camps covering General Medicine, Surgery, Gynaecology, Paediatrics, Dentistry, and Eye Care. PMK allocated **BDT 55.47 million** to facilitate these campaigns, covering doctors' allowances, logistics, and the provision of free prescribed medications.

Vision Care & Eye Campaigns: Utilizing advanced diagnostic tools like auto-refractometers, PMK identifies refractive errors and ocular diseases. In the current period, **BDT 8.17 million** was invested in diagnostic campaigns, providing free powered spectacles and identifying cases for surgical intervention.

Surgical Interventions: We provided free surgical treatments for conditions such as cataracts, fistulectomy, and ganglion cysts. Notably, **BDT 3.50 million** was dedicated to performing **137 free eye surgeries**, restoring vision and dignity to the recipients.

Emergency Outreach: During natural calamities, our Medical Assistants (SACMO/MA) conduct **door-to-door visits** in remote areas. This initiative provides primary healthcare and specific diagnostic tests (such as blood grouping and sugar levels) to the most vulnerable, including the elderly, children, and pregnant women.

Awareness and Health Education

PMK believes that empowerment begins with knowledge. We invested **BDT 8.12 million** in health education and awareness-raising programs. A key highlight this year was our campaign on **"Water Purification for Drinking and Domestic Use"** during flood seasons. These sessions provide vital knowledge on preventing waterborne diseases during peaks of contamination, fostering a community that is better prepared for environmental shocks.

Social Welfare and Education

We recognize that the future of the nation depends on its youth and the health of its environment.

Dewan Abdul Mannan Scholarship: To support academic excellence, PMK disbursed **BDT 0.47 million** in prestigious, merit-based, and fully-funded scholarships to talented students from low-income families.

Environmental Stewardship: Promoting a "green" philosophy, PMK invested **BDT 0.07 million** in purchasing and distributing plants free of cost, encouraging community-led reforestation and environmental conservation.

Humanitarian Aid and Disaster Response

In times of crisis, PMK serves as a reliable first responder. We utilized a significant portion of our CSR fund—**BDT 39.75 million**—to provide immediate relief to **38,003 individuals** in flood-affected and remote areas. This aid included essential food commodities and domestic supplies, ensuring that families could maintain their nutrition and safety during the most challenging periods of natural disasters.

Summary of CSR Expenditure (FY 2024-25)

Intervention Category	Expenditure (BDT)	Key Impact
Medical Campaigns & Medicine	5,54,71,912	Free consultation & meds
Eye Campaigns & Spectacles	81,69,441	Vision screening & support
Eye Surgical Treatments	34,95,920	137 successful surgeries
Awareness Programs	81,16,849	Community health education
Humanitarian Aid (Disaster)	3,97,47,197	38,003 people supported
Education (Scholarships)	4,68,000	Support for talented youth
Environmental Initiatives	70,000	Free plant distribution

Over BDT 6.71 crore was dedicated to direct medical services, including surgeries and general health campaigns. The program successfully reached 38,003 individuals with essential aid during natural calamities and humanitarian crises. Under the Dewan Abdul Mannan Scholarship, 78 meritorious students were provided with financial assistance to pursue their academic goals.

CSR Program Expenditure and Outreach (FY 2024-25)

Interventions	Total Expenditure (BDT)	Beneficiaries/Units
Comprehensive Health Campaigns	5,54,71,912	2,75,066 Patients

HUMAN RESOURCE DEPARTMENT

At PMK, our people are at the heart of everything we do. The Human Resource Management (HRM) department is committed to creating a dynamic, inclusive, and growth-oriented work environment. Over the past year, our HRM initiatives have focused on building employee capabilities, fostering engagement, and aligning talent development with organizational objectives. Through structured training programs, transparent performance systems, and a focus on employee well-being, PMK continues to invest in its workforce to drive sustainable growth.

Workforce Overview

As of the end of the reporting year, PMK had a total of **2671** employees across various departments and operational units. At PMK, we take pride in fostering a workplace where employees feel valued, supported, and empowered. While we are always glad to see our employees grow within the organization, we also respectfully bid farewell to those who pursue new opportunities elsewhere. We are proud to note that employee attrition was minimal, and nearly all departures occurred due to career advancement opportunities.

PMK offers confidential counseling sessions to support employee well-being and mental health. These sessions help employees manage stress, resolve workplace concerns, and receive career guidance—contributing to a more engaged and committed workforce.

Training and Capacity Building

PMK is committed to continuous learning and skill development. During the reporting year, various training sessions were conducted to enhance technical expertise, leadership abilities, and compliance awareness across departments.

Employees participated in both in-house and external training programs, covering areas such as digital tools, communication skills, safety protocols, and team management. Special focus was given to role-based upskilling and preparing high-potential employees for future leadership roles.

These initiatives not only improved individual competencies but also contributed to overall organizational effectiveness. HRM trained a total of **3335** staff during the year.

SL No.	Training Course Name	Participants
01	Basic Microfinance Management	739
02	Accounts & Software Management Workshop	104
03	Microfinance Management Workshop	235
04	Microfin'360 Software Management	153
05	Advance Microfinance Management	360
06	DFS Services (bKash & Apps Collection)	1595
07	Leadership & Management Development	149
Total		3335

Employee Welfare and Benefits

PMK ensures a supportive work environment through a range of employee welfare measures. Key benefits include:

- Provident Fund (PF) for long-term financial security
- Leave entitlements with the option for leave encashment
- Emergency support for medical and financial needs
- Gratuity benefits as per organizational policy and statutory guidelines

These initiatives reflect PMK's commitment to the well-being and financial stability of its employees.

Succession Planning and Leadership Development

PMK focuses on preparing the next generation of leaders from within the organization. Potential employees are identified and given opportunities for growth through training, mentoring, and leadership roles.

This helps ensure smooth transitions in key positions and supports long-term organizational stability.

Employee Engagement and Culture

To promote a healthy work-life balance and encourage team bonding, PMK organized several refreshment activities during the year. These included an annual picnic, indoor games, and sports events. Such programs provided employees with opportunities to relax, interact informally, and build stronger workplace relationships.

Staff Dining Facilities at PMK

PMK ensures proper dining arrangements for its staff as part of its commitment to employee welfare. Recognizing that a well-managed dining environment contributes significantly to staff morale, productivity, and overall well-being, PMK has established a dedicated dining space with sufficient capacity to accommodate both staff and visitors comfortably. The kitchen is staffed adequately to maintain cleanliness, manage operations efficiently, and ensure timely meal service. This facility reflects PMK's attention to creating a supportive and healthy work environment for all.

IT Department & Management Information System

In 2010, PMK established a dedicated ICT Department with the aim of digitizing its operations through the use of software solutions. To support this initiative, PMK partnered with Data Soft Systems Ltd., a reputed software company, to implement customized software systems. As a result, all PMK branches, including the head office, have been integrated into a computerized network, utilizing software-based Management Information Systems (MIS) and Accounting Information Systems (AIS).

To take the digitization one more step ahead, PMK has initiated MFS with bKash. The integration of bKash into PMK's operations drastically increasing operational efficiency and financial security. By transitioning from traditional cash transactions to mobile financial services, the institution has successfully minimized cash-handling risks, and optimized field officer productivity. This initiative empowers our borrowers with the convenience of 24/7 remote loan repayments, significantly improving the overall customer experience. Furthermore, the automated digital tracking enhances transaction transparency and data accuracy, ensuring robust governance and alignment with national financial inclusion goals.

The ICT Department plays a crucial role in managing technology infrastructure, ensuring data security and privacy, supporting software and applications, overseeing data management and analysis, and facilitating effective collaboration and communication across the organization.

Our online HRM system streamlines employee management by automating attendance tracking and centralizing employee data. Integrated with Management Information Systems (MIS) and Accounting Information Systems (AIS), it ensures accurate data handling, efficient reporting, and improved transparency. This digital approach enhances operational efficiency, supports informed decision-making, and allows HR teams to focus on strategic initiatives, while employees benefit from reliable and timely administrative processes.

DEVELOPMENT PARTNERS

PMK's donors have extended substantial cooperation to the organization. Their support helped PMK to stand on its own feet. The partners are following-

Growth of Assets

FY	Amount in BDT		
	Asset (in Million BDT)	Loan to Members (in Million BDT)	Profit (in Million BDT)
2024-2025	14677.73	12244.62	627.21
2023-2024	19974.77	17649.78	1155.82
2022-2023	24608.60	21819.09	1951.58
2021-2022	26490.00	22948.49	2042.99
2020-2021	29597.07	25939.86	1924.93

PMK demonstrated financial efficiency and strong shareholder value creation during the **FY 2024-2025** period, as reflected in its key profitability indices. The **Return on Asset (ROA)** was recorded at **7.87%**, significantly exceeding the **PKSF standard of minimum 3%**. This metric underscores the management's effectiveness in utilizing the growing asset base—which expanded from **BDT 14,677.73 million** in FY 2020-21 to **BDT 29,597.07 million** in FY 2024-25—to generate consistent net earnings. While the ROA shows a slight strategic moderation from the previous year's 9.12%, it remains a testament to high-quality asset management amidst a substantial increase in the "Loan to Members" portfolio, which reached **BDT 25,939.86 million**.

Furthermore, the **Rate of Return on Capital (ROE)** stood at a healthy **16.45%**, well above the regulatory benchmark of **1%**. Although there was a year-on-year decrease from the 20.48% observed in FY 2023-24, the current double-digit return highlights the organization's ability to generate substantial surplus relative to its capital fund. This performance is particularly noteworthy given the slight dip in absolute profit to **BDT 1,924.93 million**

in the current year, as PMK prioritized portfolio stability and expansion. The consistent upward trajectory of total assets and loan disbursements, as visualized in the multi-year growth chart, combined with these efficiency ratios, affirms a sustainable and resilient financial model capable of delivering value to stakeholders while maintaining strong capital adequacy.

Portfolio Quality

The financial performance over the last five fiscal years highlights a dynamic correlation between revenue generation and credit risk management. The **Portfolio Yield (PY)**, representing the operational income from the lending portfolio, showed a steady upward trajectory, peaking at **23.13%** in FY 2023-2024. However, the current fiscal year (**FY 2024-2025**) observed a strategic correction with the yield settling at **21.62%**.

This adjustment is closely mirrored by the trend in **Portfolio at Risk (PAR > 30 days)**, which has seen a gradual rise from 2.50% in FY 2020-2021 to **8.46%** in the current period. While the PAR remains within the **PKSF regulatory ceiling of 10%**, the narrowing gap between yield and risk underscores PMK's shift toward a more cautious and sustainable lending approach, prioritizing portfolio quality over aggressive revenue growth.

Income and Expenditure

PMK has maintained a consistent trajectory of financial growth and operational self-sufficiency over the last five fiscal years, as evidenced by the widening surplus between total income and expenditure.

According to the financial data from **FY 2020-2021** to **FY 2024-2025**, total income surged from **BDT 2,484.83 million** to **BDT 5,503.78 million**, representing a remarkable

growth of approximately **121%**. During the same period, PMK effectively managed its operational costs, with expenditures rising from **BDT 1,857.62 million** to **BDT 3,578.85 million**. The visual data in the performance chart highlights a healthy "scissor effect," where the revenue line consistently climbs at a steeper rate than the cost line, resulting in a substantial operational surplus of **BDT 1,924.93 million** in the current fiscal year. This robust performance ensures that PMK remains well-positioned to fund its expansion and absorb potential credit risks while adhering to the stringent financial transparency standards required by stakeholders and regulatory bodies.

PMK HOSPITAL

PMK Hospital was established in 2015 with the aim to serve PMK's microfinance beneficiaries, adjoining garment industry population and surrounding community to provide quality service at a reasonable cost. It is a registered 50 Bed multi-disciplinary specialist secondary care hospital with services ranging from Indoor, Outdoor, Laboratory and Modern Diagnostic set-up. The hospital is equipped with modern facilities like medical beds, quality lab, labor room including CTG, well equipped OT, ECG, X-ray, ultrasonography etc. along with qualified doctors, nurses and medical professionals.

The emergency unit is also operated 24 hours a day equipped with monitor, ECG and other necessary equipment and specialist cover alongside general physician. It has a 24 hours ambulance service to transport patient from and to the hospital and referred institutions. Outpatient services of the hospital are provided by specialists of major disciplines like Medicine, Surgery, Gynae & Obs., Pediatric, Orthopedic, ENT, Eye care, Dentistry etc. Along with general physicians at the emergency unit. EPI services are also part of the hospital outdoor services.

In-patient services include all specialist care with the option of selecting general bed, air-conditioned and non-air-conditioned cabins. The hospital has three separate operation rooms (2 General OT and 1 Eye) equipped with modern equipment and instruments. Operations are performed with latest devices including laparoscopic cholecystectomy, laparoscopic appendicectomy, etc. and by qualified surgeons, anesthetists and other support staffs. For normal deliveries the hospital is equipped with labor rooms and well experienced nurses/paramedics to facilitate in house deliveries of the patients under the supervision of doctors.

PMK Hospital currently has more than a hundred different pathological and other diagnostic facilities including operations for various diseases. At present the hospital has an indoor / outdoor treatment system including emergency department, neonatal, pediatric and adolescent department, obstetrics and gynecology department, orthopedic and medicine department, cardiology, gynecology and diabetics, dental department and ophthalmology and dermatology department. Memorandum of Understanding (MoU) has been signed with 36 garments in the area adjacent to the hospital /Zirabo; under which about 50,000 staff/workers of these garments are able to avail the services of PMK Hospital at low/discounted price. The hospital has already received approval to upgrade to 50 beds.

HOSPITAL SERVICES AT A GLANCE

- 24*7 Emergency Services
- 24*7 Ambulance Services
- 24*7 Gynae & Obs. Services
- Specialist services (Medicine, Children for 12 hours-Morning and Evening)
- Eye (6 days in a week)
- ENT (3 days in a week)
- Orthopedic (2 days in a week)
- Lab services (8 am to 10 pm) and on call at night
- USG (24 Hours)
- ECG (24 Hours)
- X-Ray (8 am to 10 pm) and on call at night
- EPI services (6 days in a week)
- 24*7 Indoor services
- 24*7 Emergency operations (Cesarean and all other surgical operations)

PMK Hospital

PMK NURSING COLLEGE

PMK Nursing College is approved by ministry of Health and Family Welfare, and also affiliated with the Bangladesh Nursing and Midwifery Council and the University of Dhaka. It was established in 2019. It is situated on Zirabo, Ashulia, Saver, Dhaka. PMK Nursing College has own college campus that is well furnished, fully air conditioned and adequately equipped to accommodate class rooms. All the lecture room has been equipped with audio visual instruments including multimedia set up.

Courses of PMK Nursing College

Sl. No.	Courses	Durations	Seats
01	Diploma in Nursing Science and Midwifery	03 years	50
02	Diploma in Midwifery	03 years	50
03	Basic B.Sc. in Nursing	04 years	30
04	Post-Basic B.Sc. in Nursing	02 years	20

Facilities provided by PMK Nursing College

- Teaching in own classrooms having lift facility.
- An experienced teaching team.
- 24/7 security service.
- Generator service.
- Canteen and fast-food shop.
- Separate dormitory at low cost in well environment under own supervision.
- Digital laboratory with modern lab facilities.
- Free Wi-Fi Zone.
- The entire campus is monitored by CC TV Cameras.
- Free Computer and English courses are available.
- Providing clinical placement in our own hospital and in other recognized medical colleges and hospitals.

PMK Nursing College

FLORAL BIOTECH & AGRO SOULS.

To improve the agro economy of the farmers and elite consumers, the vision of PMK is to combine the indigenous agriculture practices with the modern Biotechnology. Since 2020, it has been endeavoring to grab the milestone and by this time achieved a commendable success by setting a modern plant cell, tissue & organ culture lab. Banking on quality agro products, PMK Floral Biotech & Agro programs have been weaving to create the sustainable & commercial networks with the elite farmers Qand peasants.

Moreover, to preserve the farmers table potato and also to ensure the quality of seed potatoes, PMK is going to raise a multipurpose cold storage in the name of MAKFARE by the end of 2026.

The glimpses of achievements of Floral Biotech & Agro Soul under the technical guidance of Dr. Ather uz Zaman are as follows:

1. Established a modern plant cell, tissue & organ culture lab,
2. Set up a genuine R&D cell having experienced experts and technical persons,
3. Standardized the protocols for the micropropagation of Gerbera, Banana, Sugarcane and seed Potatoes,
4. Development of a unique In Vitro & Ex Vitro Gene Bank of Gerbera and Potato,
5. Raising a multipurpose cold storage,
6. Developing marketing channel, Training manuals both for the farmers & lab technicians,
7. Prepared relevant website and Facebook page.

Photos displaying the activities of Floral Biotech & Agro Souls.

PMK TECHNICAL TRAINING INSTITUTION (PTTI)

PMK carries out various development initiatives, one of which includes providing technical training through the PMK Technical Training Institute (PTTI). PTTI is a sister concern of Palli Mongal Karmosuchi (PMK), dedicated to offering skill-based education and training.

The PMK Technical Training Institute (PTTI) offers learning opportunities aimed at equipping individuals with the skills, knowledge, and attributes necessary to participate effectively in the labor market. Established in 2018, PTTI is well-equipped with adequate human resources, modern infrastructure, up-to-date equipment, and qualified trainers to deliver its training programs. The institute provides technical and vocational training in various trades, including Tailoring and Dressmaking, Sewing Machine Operation, Electrical Installation and Maintenance, Mobile Phone Servicing, and more. All trades currently offered by PTTI are accredited by the Bangladesh Technical Education Board (BTEB).

CAREGIVING PROGRAM: EMPOWERING A GLOBAL WORKFORCE

The PMK Technical Training Institute (PTTI) is setting a new standard for professional caregiving through its NSDA-certified training program. This intensive, three-month curriculum is strategically designed to transform enthusiastic trainees into highly competent and compassionate caregivers.

Starting with an ethics-focused orientation, the program quickly progresses through essential skills like patient safety and hygiene (Month 1), to advanced topics including elderly care, medication management, and emergency response (Month 2). The final month is dedicated entirely to hands-on simulations and empathy-building, ensuring graduates are confident and workplace-ready. By providing the internationally recognized NSDA certificate, PTTI is significantly boosting women's empowerment and creating sustainable employment pathways. Graduates are immediately positioned for high demand careers in hospitals, home-care settings, and overseas markets, positioning PTTI as a key player in developing Bangladesh's next generation of skilled human resources.

Courses of PMK Technical Training Institute:

S/L	Course Name	Level	Durations
01	General Caregiving	2	3 Months
02	Caregiving for infant, toddler and children	3	3 Months
03	Caregiving for Elderly persons	3	3 Months
04	Caregiving for special need with persons	3	3 Months
05	Primary Health care services	2	3 Months
